

Flexible Bank 8 Qi

Powerbanksystem
AK0104

Product Mockup with akkut Branding

Additional Information

Cutline: The finished size of the printed Branding.

Bleed: Artwork should bleed (go past) the Cutline to ensure a perfect result.

Ensure that all text is OUTLINED and all images are EMBEDDED and high quality (300dpi).

It is advisable to use translucent plastic sheets for the exchangeable branding surfaces as they are backlit.

Hint: The powerbanks provide wireless charging. A reference to the wireless charging symbol on one of the branding areas is recommended. (See BRANDING C).

2 different connectors (USB Type-C and Apple Lightning) are integrated in each powerbank and marked on the powerbank itself (See BRANDING A).
